

1. To charge the headphone

Take your charging cable and plug the mini USB port to the headphone and plug the other end to a USB port – this could be on your laptop or PC. It should take 12 hours when charging it the first time.

2. Turn On the headphone

3. To connect the headphone to your device....

Go to your handset's Bluetooth settings, turn it on and connect to dBs-Live. Or if you have a device that does not support Bluetooth but you still want to use the headphones, plug in the 3.5mm jack

4. Adjusting the volume

Now, press and hold the \oplus button if you want to turn the music up or press and hold \ominus to turn it down...

5. Playing the next track

A single press should do it if you want to go to the next or the previous track

6. Answering Calls

If you got an incoming call in the middle of listening to your favorite tunes... Press the M button to answer or hang up

Now you are ready for the dBs Experience!
